

Zale Zeviar

It was 1990 and Zale had just finished the biggest financial year of his life (over 7 figures). He had the life that most would dream of including being a shareholder in one of Canada's premiere investment houses, a beautiful family, money, homes, cars, assets and stature in my community... but he was not happy. In fact, he admits he was downright miserable.

This was the classic story of "Is this all that there is?"

Looking for an answer to that question, Zeviar resigned his position as an investment advisor and decided to jump out of society to go on a spiritual quest. He left it all behind - home, cars, stature - and with the blessing of his family he left Canada to study under the guidance of a master teacher.

After years of intense self study and meditation, Zale came to realize that the power of silence and stillness was the ticket to embracing life's purpose and living in fulfillment. This study of consciousness and energy expanded his belief structure and revealed to him the path that all Masters have walked throughout time.

During this time Zeviar became anchored in a whole new reality - we are all spiritual beings having a human experience.

Zale Zeviar is a *Master Teacher and Founder of the Initiate School of the Canadian Rocky Mountains Ltd.* As an adult school of Consciousness and Enlightenment, the Initiate School provides a non-denominational, non-religious venue where people from all walks of life attend classes and study evolution. The Initiate School is dedicated to the enlightenment and spiritual advancement of those who wish to awaken to their Conscious Evolution.

In addition to weekly classes, we have regularly scheduled retreats and international speakers. These retreats are, naturally, held in the Canadian Rockies—only an hour from Calgary. To learn more about Zale Zeviar and The Initiate School, check out www.initiateschool.com or www.discoverspirit.com
